MEMORANDUM FOR INBOUND AIRMAN

FROM: Det 93/CC

SUBJECT: Welcome to Homestead Air Reserve Base

1. Congratulations on your assignment to Homestead Air Reserve Base! I hope you are as excited to get here, as we are to have you. This will be one of your most exciting and rewarding assignments in your career.
2. Detachment 93 is the regular Air Force (RegAF) active duty unit on Homestead ARB. We are embedded within the 482nd Fighter Wing (Reserve) under the Total Force Integration (TFI) initiative. The concept of TFI is to embed active duty personnel with their Guard and Reserve counterparts, just as Guard and Reserve personnel have been embedded with various active duty units throughout the community Air Force for many years. This relatively new squadron consists of approximately 180 Airmen. Most members of our team are maintainers and pilots. Detachment 93 has various units within the 482nd FW, but reports directly to the 495th Fighter Group as part of 9th AF, located at Shaw AFB, SC.
3. I want to share some essential information with you. Homestead ARB does not have the same support structure you have probably grown accustomed to at active duty bases. Despite some of these limitations, there are many people working diligently to ensure your needs are met and your experience here is a positive one. Please communicate with your sponsor early and often, so we can advise you on the correct course of action to make your transition smooth and seamless. If you have not received a sponsor within two months of your arrival; please contact the Command and Support Staff (CSS) or our First Sergeant.
